

Survey CSV to RDA Mapping

Note that the XML file will contain 3 Survey sections, one per SurveyType. Some fields are repeated in all three Survey blocks.

The OCR supplier has suggested that we should confirm the header row in each file is what we expect rather than assuming that the column positions will remain the same.

Field	Use	Mapping
PageNo	Scanning Metadata - IGNORE	N/A
Template	Scanning Metadata or "SharedHD" to indicate Surveys from that project	/PatientRecord/Surveys/Survey/Template/
TargetFile	Scanning Metadata - IGNORE	N/A
Forname		/PatientRecord/Patient/Names/Name/Given/
Surname		/PatientRecord/Patient/Names/Name/Family/
Renal Unit	Note: This requires a lookup to translate Renal Unit Name to Renal Unit Code	/PatientRecord/SendingFacility/
Type of Treatment		/PatientRecord/Surveys/Survey/TypeOfTreatment/
HD Location		/PatientRecord/Surveys/Survey/HDLocation
DOB		/PatientRecord/Patient/BirthTime/
Post Code		/PatientRecord/Patient/Addresses/Address/PostCode/
Date Completed		/PatientRecord/Surveys/Survey/SurveyTime/ & /PatientRecord/Surveys/Survey/EnteredOn/
NHS Number	Note: Organization needs to be worked out based on the number range of the NHS Number.	/PatientRecord/Patient/PatientNumbers/PatientNumber/Number/ & /PatientRecord/Patient/PatientNumbers/PatientNumber/Organization = NHS/CHI/H&SC /PatientRecord/Patient/PatientNumbers/PatientNumber/Type = NI
Renal Unit Post Code	Originally intended to identify Renal Unit. Not Used - IGNORE	
RUID	Not used currently but could be an alternative to Renal Unit name.	
	SurveyType (see below)	/PatientRecord/Surveys/Survey/SurveyType/Code/ & /PatientRecord/Surveys/Survey/SurveyType/Description/
YSQ1-17	PROM	/PatientRecord/Surveys/Survey/Questions/Question/QuestionType/Code = Header /PatientRecord/Surveys/Survey/Questions/Question/Response = Value
YOHQ1-5	EQ5D	/PatientRecord/Surveys/Survey/Questions/Question/QuestionType/Code = Header /PatientRecord/Surveys/Survey/Questions/Question/Response = Value
MYHQ1-13	PAM	/PatientRecord/Surveys/Survey/Questions/Question/QuestionType/Code = Header /PatientRecord/Surveys/Survey/Questions/Question/Response = Value

YHS1-6	Your Health Survey Metadata	/PatientRecord/Surveys/Survey/Questions/Question /QuestionType/Code = Header /PatientRecord/Surveys/Survey/Questions/Question/Response = Value
Where		/PatientRecord/Surveys/Survey/EnteredAt/Code/ & /PatientRecord/Surveys/Survey/EnteredAt/Description/
How		/PatientRecord/Surveys/Survey/EnteredBy/Code/ & /PatientRecord/Surveys/Survey/EnteredBy/Description/

Metadata Survey

Field	Question
YHS1	How Confident you are you?
YHS2	How did you complete it?
YHS3	Where did you complete it?
YHS4	Do you use PatientView?
YHS5	Type of Treatment
YHS6	Type of HD
